INDIVIDUAL MENTORING

1:1 Mentoring

Tailored mentoring working on individual goals.
Every session is focused on progression.

1:1 Mentoring

tailored to individual goals, building rapport and working up to group activities

Routine Setting

building routines that make everyday life easier, including getting out of the house

Capacity Building

life skills and independence, every session focused on progression

Mentoring, not managing

1:1 mentoring is a brilliant way to commence support, build rapport and work your way up to engaging in group activities to increase your social capacity.

Our mentors are experienced and engaging, and every session is focused on progression, no matter how big or small. Our role is not to direct or control people. It is to walk alongside them, build their confidence and support them to grow.
